

Dear professor,

My name is Yohana Oqubaldet. I am a new MSD student. I am very happy to take the course with you. Its nice meeting you Professor.

I have completed all the tasks in today's lecture. It was fine for me, and I showed up a very good progress on that. I really like the way you teach us. It was nice and clear.

Even though I am new to JavaScript but since you teach us very well today, I can be able to do all the assignment without any stress. It

Sincerely,

Yohana Oqubaldet
